UKAL GREEN

UKAL GREEN, THE REASON FOR OUR EXISTENCE: AN ALLIANCE OF EFFICIENCY AND ENVIRONMENTAL PROTECTION

*"Good for me, good for my garden, good for my livestock,
good for my home, good for the planet."*

This, in a word, is how we sum up our ambitions for this new division.

Much more than a passing fad, the green economy has well and truly taken a dominant role in our company. To meet the expectations of private individuals, gardeners and farmers, it was high time for UKAL to embark on a strategy of diversification and propose a range that combines efficiency and nature.

The **UKAL GREEN** division wants to offer an answer to exacting consumers looking for products in line with their convictions. Ethical and eco-responsible, UKAL GREEN brings you quality products, made in France and Europe, which are also environmentally friendly.

We want to develop **UKAL GREEN** into a division that combines product quality, ecology and responsible sourcing. We are always looking for new partners and we are also expanding our product range by developing and strengthening our own brands.

Our product range will be broadened accordingly over the coming years, always adhering to this demanding course of action.

ADVANTAGES OF THE LUMIA

- Heat-resistant ABS with Biomaster.
- Lumia 8: a small, technologically advanced, high performance machine. Its elegant design with "smart" technology makes this machine smart and easy to use and one of the best in its class.
- Lumia 8 stems from a desire to make the miracle of life available to all. It features top-level professional incubation technology aimed at those with a limited number of eggs. The same technology that Borotto uses in larger models that can reach a higher level of accuracy and reliability.
- Lumia 8 is designed and built to better meet farmyard poultry and valuable species breeding requirements. Thanks to the use of innovative materials and a functional and ergonomic design, Lumia 8 is an indispensable instrument that is easy to use, both for the professional breeder and for all new breeding enthusiasts who want to try breeding farmyard animals for the first time, with expectations of a good result.

Mane, coat and tail care

HAIR TONIC

Acts on dandruff, itching and friction. This highly effective tonic lotion rids the tail of dandruff, reduces itching and promotes the growth of long, healthy, beautiful hair, thanks to the caffeine, which stimulates hair growth from the root. The burdock root oil stops the spread of bacteria that cause eczema and dry patches. The tonic can also be used preventively to keep the scalp healthy.

1 L

SPRAY FOR A SHINY COAT, TAIL AND MANE

A revolutionary combined product to take care of your horses. It produces a coat which is as soft as silk and gives a long-lasting shine to the coat, tail and mane. The fine, glossy effect lasts for at least 12 days, and tail and mane remain tangle-free for the same length of time. EQUISTAR is absolutely non-toxic, even for very sensitive horses. For the time during which it is effective, it is dust- and dirt-repellent and water-repellent, and prevents the formation of new clusters of flies' eggs. EQUISTAR makes it easy to brush off spots of urine, dirt or dung, with just a few brush strokes.

HIMALAYAN SALT BLOCK

A totally natural salt lick, extracted from Himalayan rocks. Very pure and with a specific and highly palatable taste, the Himalayan salt block is rich in minerals and trace elements, and brings your horse vitality and well-being. This block is very solid as it is made from a single piece of rock. It does not break or dissolve when in contact with moisture like compressed salt blocks do, so it can be used in pastures. The salt block is pierced and can be placed in a manger, on a salt block holder or fixed anywhere with the supplied rope. Composition: sodium chloride 98.62%, magnesium 0.40%, calcium 0.11%, sulphates 0.10%, iron 0.001%, moisture content 0.03%, non-soluble residue 0.73%.

KLAKTRAP stands out for its wide
selection of metal traps for animals and
in particular traps for mice and rats.
Efficient and easy to use.*

Mice

— **ROUND WOODEN MOUSE TRAP 12 CM**

Ideal cage trap to catch mice with bait. Very easy to use, simply open the hatch and place the bait on the bait holder and place the trap in an area where mice are present. The mouse is attracted to the bait and enters the trap cage, which closes behind it. The mouse is trapped alive, and you can release it elsewhere. The trap's wooden base ensures optimum rigidity and reassures the animal!

HAND MOLE TRAP

This trap is set by hand and can be reused ad infinitum as long as you have a trigger to hold the trap open and ready. This trap is used without a setting device. When the mole pushes against the trigger (a small metal frame that holds the trap open and ready), it trips the spring and finds itself trapped between the two jaws. An effective trap, economical and very easy to use in your fight against moles.

LED PREMIUM INDOOR INSECT DESTROYER

SWISS
INNO

Flying insects (flies, pantry moths, mosquitoes) are attracted by the ultraviolet light and immediately killed by the high-voltage grid. Dead insects drop into the collection tray, which is easily removed for emptying and cleaning. The ultraviolet light is safe for humans and pets. Compared to a fluorescent lamp, a LED uses half the power (watts) to generate the same light output (lumens) and has a much longer lifespan. The high-voltage electric grid is a new design that greatly increases the capture rate. It meets all CE safety requirements.
