

AI GOVERNANCE PLATFORM

Manage AI usage, costs, and risk: with complete transparency.

Fruggr gives you the KPIs to drive your AI transformation: track spend, prove ROI, and stay audit-ready as usage scales across your organization.

ROI & COST CONTROL

Your AI spend is doubling. Is your ROI keeping up?

Track cost and performance across every AI system. Cut waste, prove value, and measure AI's environmental footprint in detail.

DISCOVERY & VISIBILITY

60% of employees use shadow AI. Can you see it all?

Fruggr's discovery engine surfaces shadow AI across your org — govern what's actually running, not just what's declared.

COMPLIANCE & DISCLOSURE

Your next audit will ask about your AI. Are you ready?

Know exactly what to disclose. Built for the EU AI Act, ISO 42001, and NYC LL144 — transparent, in control.

3.2×

enterprise GenAI spend growth in one year
Menlo Ventures, 2025

60%

of employees use shadow AI
Forrester, 2024

76%

of Americans expect AI disclosure from companies
Washington State University, 2024

HOW IT WORKS

1

Discover

Auto-map every AI system: deployed, shadow, third-party.

2

Measure

Track real-time cost, usage & ROI per AI initiative.

3

Govern

Assign owners, set policies, stay audit-ready.

4

Disclose

Report in days, not months: for clients, boards & regulators.

"Fruggr gave us complete visibility over our AI portfolio: the ROI reporting made our board presentation a success."

Chief AI Officer, Fortune 500 Financial Services

TRUSTED BY

L'ORÉAL

LVMH

Take control of your AI. Starting now.
