

I am new employee in the agriculture field

What am I supposed to do? Which documents are needed

1. After being hired, is MSA (Agricultural social insurance) opening my malady right directly?

Usually, MSA opens rights if I am hired in CDI or CDD (6 months minimum) and if, the number of my hours is at least 100 per month. Otherwise, my previous rights remain applicable.

Exception, no matter the type of contract, MSA is opening right if I am victim of work accident, commuting accident, or if I was previously entitled to another regime other than the general one.

The opening rights to MSA become effective after 2 months from the hiring date, without any administrative actions needed from the employee.

In the meantime, **I keep my social number as well as the Vitale card.**

I update the card only after receiving a letter from MSA asking me to do so. I have 30 days from the receipt of MSA letter to make the update.

While waiting for the update of the Vitale card, I am still reimbursed by my previous social security regime. Afterwards, I am updating my Vitale card once a year or for any change of my situation.

2. If new situations due to pregnancy, or maladies, I need to address a letter of the evidence of these to :

- previous social security regime if I haven't updated yet my Vitale card,
- MSA if my Vitale card is updated.

If new work accident, or professional maladies, it is mandatory to send the evidence of these to MSA even if the Vitale card hasn't been updated yet.

Only address is as follows:

MSA d'Armorique
12, rue de Paimpont
22025 Saint-Brieuc cedex 1

3. If I am a foreigner and do not already have a certified social security number (starting with 1 for a man and 2 for a woman), I send to my Agricultural social insurance (MSA) an untranslated birth certificate with filiation and the copy of an identity document.

If I am not a citizen of the European Union, I also send a copy of my residence permit.

4. I send a Bank Statement to the Agricultural social insurance (MSA) in my name.

5. If I or one of my children has a long-term infection, I submit a request to transfer my medical record to the medical control department of my previous health insurance fund, which will then send it to the Agricultural social insurance.

6. If I am a CAF recipient, I ask that organization to transfer my file to my Agricultural social insurance (MSA). The transfer will be carried out if I am on a permanent or fixed-term contract of at least 6 months. Otherwise, my file remains open with the CAF, time to reach 6 months of activity in the agricultural regime.

If my wife or husband is a CAF recipient, I can choose between the MSA and the CAF for payment of my family benefits.

If I choose the Agricultural social insurance (MSA), I benefit from the benefits of the MSA one-stop shop. I can, according to my revenues, benefit from social benefits such as holiday vouchers or leisure vouchers, help with entry into working life.

7. After updating my « carte vitale » (social security card), I register at “my private space” on the armorique.msa.fr site to make my online procedures.

Thanks to “My private space/Mon espace privé”:

- I transmit my documents by clicking on “Send a document/Envoyer un document” available in the section “contact and exchanges”.
- I exchange with my MSA by clicking on “My messages/Mes messages”.
- I download a certificate of health rights by clicking on “attestation de droits maladie” available in the section “attestations”.

8. I ensure that my MSA knows my home address, phone number, and email address by clicking on “My account/Mon compte” in “My private space/Mon espace privé”. If one of these elements is wrong, I correct it by clicking on “Edit/Modifier”.

9. I send to my complementary health a certificate of health rights that I have previously downloaded in “My private space/Mon espace privé”.
