

iner

Founded in 2017 in Strasbourg, France, **iner** is built around quiet elegance, minimalist lines and a very personal philosophy.

It represents intimacy, personal space and the emotional connection we have with the objects we choose to carry.

Each of our **leather creations** is crafted from **a single piece** of material, forming a pure silhouette that feels naturally shaped, almost like an extension of the wearer.

Our logo is placed inside the bag, as a reminder that the ***essential is inside.***
