

ABOUT

ASHIA creates sculptural jewellery from hand-carved natural crystals, set with 14K gold and gemstones.

The collection is developed closely with master artisans in Rajasthan, India, combining traditional stone-carving techniques with a distinctive and refined design language.

Each natural crystal carries its own colour, inclusions and structure, making every piece subtly unique.

THE COLLECTION

Hand-carved crystal pendants, necklaces and ear pieces built around strong, recognizable forms.

Selected pendants are designed to move between different cords, allowing the same piece to be worn and styled in multiple ways.

Key materials include quartz, onyx, amethyst, tiger eye, red jasper, lapis and other natural stones, combined with 14K gold and gemstones.

- Strong and recognizable product identity
- Hand-carved natural crystals and specialist craftsmanship
- Sculptural hero pieces with strong visual presence
- A distinctive material and design language
- A clear founder, craft and origin story
- Versatile pieces designed beyond a single styling or season
