LUIS SANTOS STUDIO

BRAND BOOK / 2026

LUIS SANTOS STUDIO explores clothing as a form of architecture in motion.

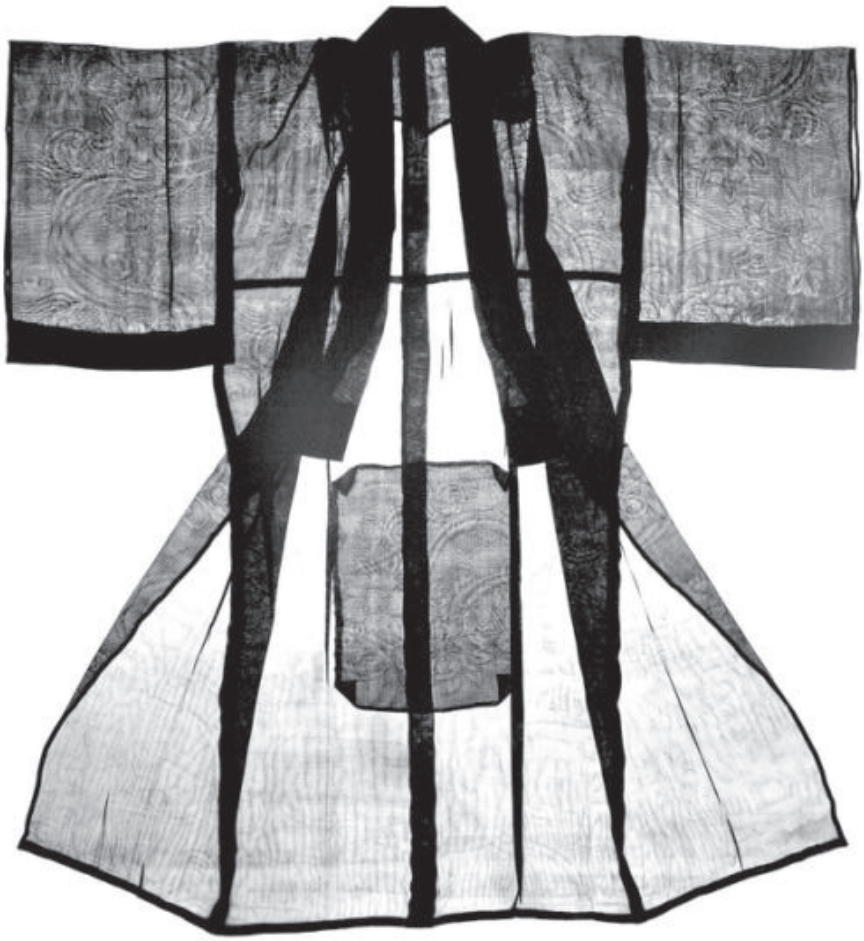

The work draws on constructivism,
deconstruction, and the exploration of volumes
that protect, envelop, and move with the body.
Silhouettes are conceived as cocoons:
structured yet never rigid,
precise in their lines,
while allowing genuine freedom of movement.

The brand's aesthetic draws on a Japanese sensibility,
where simplicity, balance, and attention to detail
play a central role.

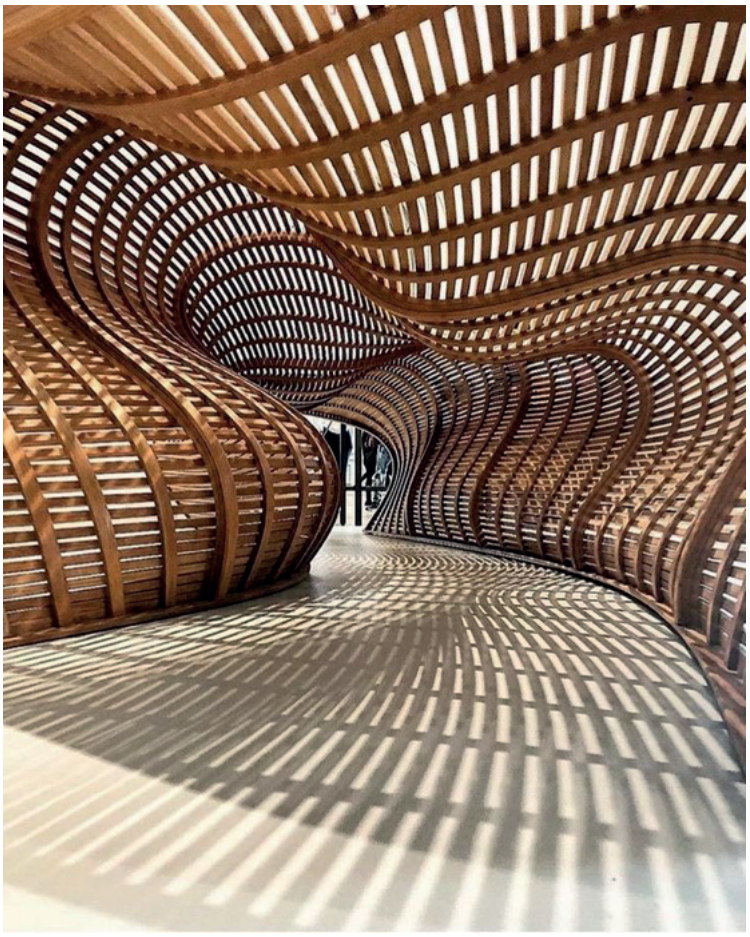

This sense of precision is combined
with a more instinctive and artisanal approach,
where construction, materials, and finishing
become forms of expression.

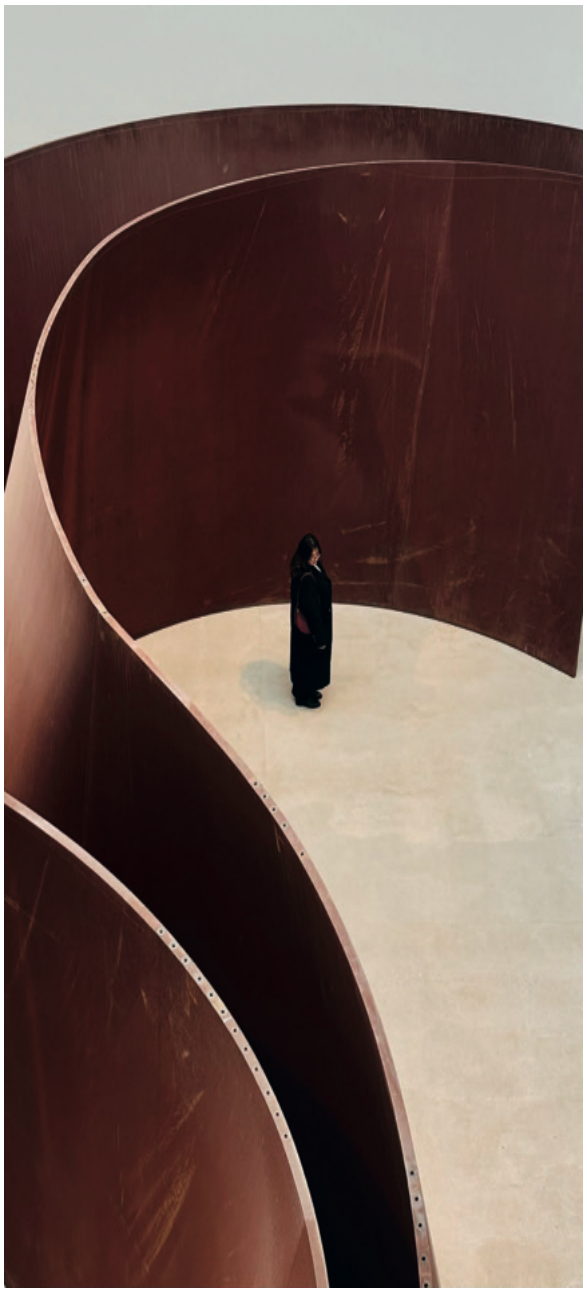

Luis Santos Studio explores a balance
between structure and fluidity,
minimalism and singularity.

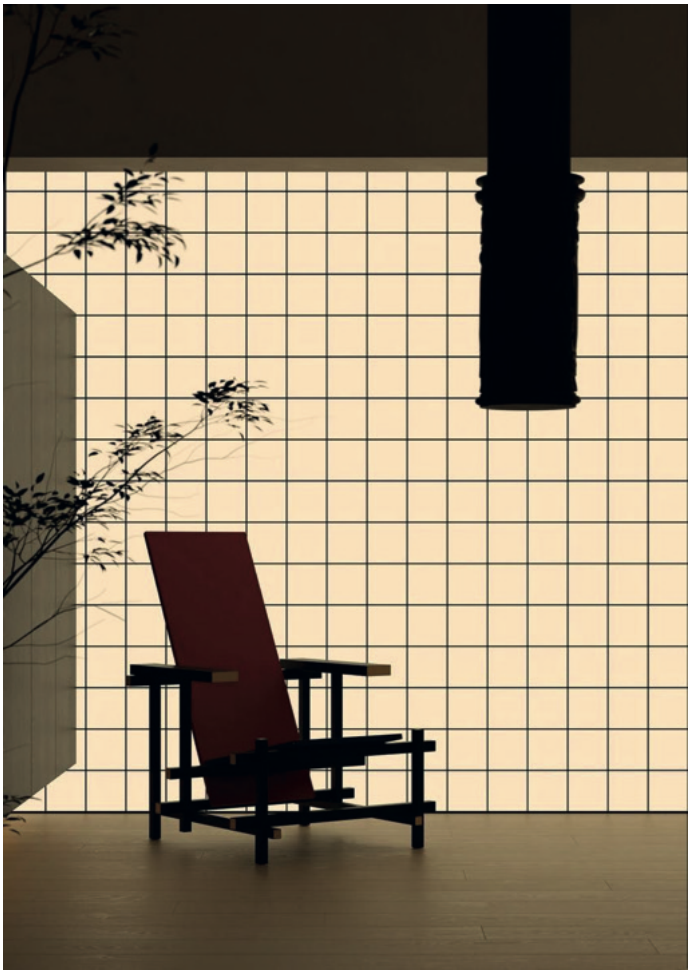

Comfort, movement,
and attention to detail
remain at the heart of every piece.

Between structure, space and movement.

OBSESSION & PROTECTION / Drop 1

Details shape the silhouette.

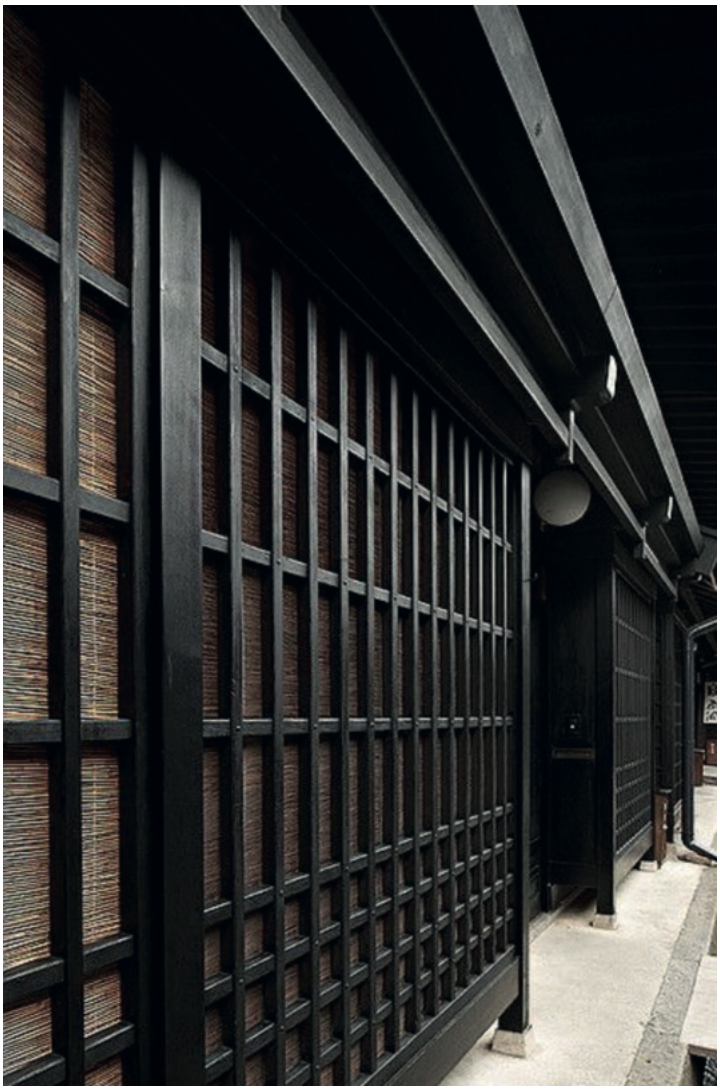

THE STORY CONTINUES

The silhouette evolves.

The language of structure,

protection, and movement

remains.

THE STORY CONTINUES / Drop 2

23:30

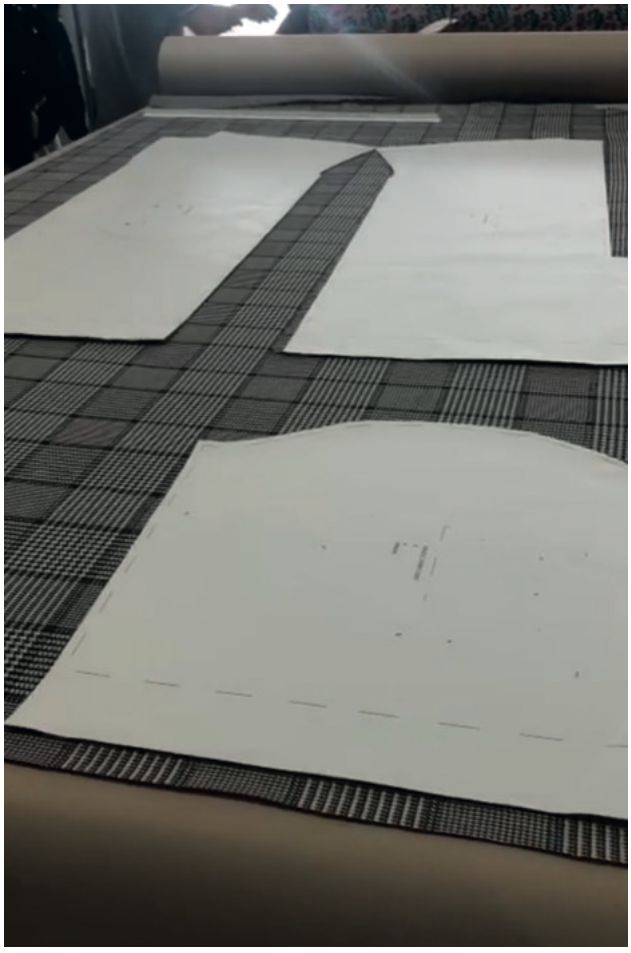

FROM CONCEPT TO CONSTRUCTION

Each silhouette begins with construction, gesture, and precision.

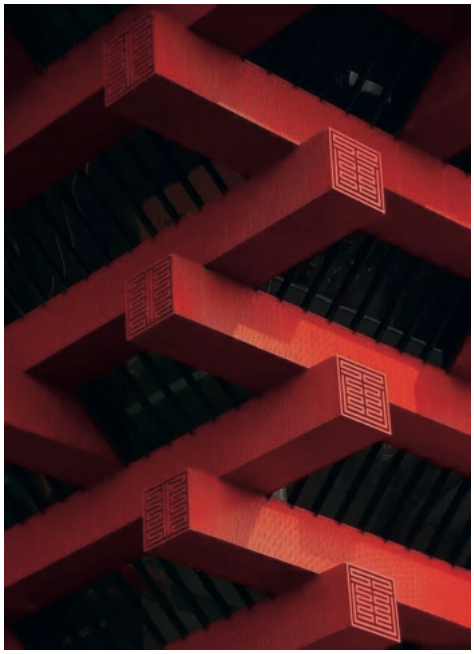

Craft takes shape through gesture and precision.

A new balance between structure and expression.

AFTER OBSESSION / Drop 3

Structure frames movement, freedom shapes expression.
