OFFICIALLY LICENSED ARTISTS

Parastone works closely with artists' estates, foundations and licensing partners to create officially licensed collections based on the work of some of the most iconic artists of the 20th century.

Fundació Gala-Salvador Dalí

Salvador Dalí transformed the world of Surrealism with his extraordinary imagination and unmistakable visual language. The Dalí collection translates some of his most iconic paintings into three-dimensional art objects.

SALVADOR DALÍ

The M.C. Escher Company B.V. / Artefatto

M.C. Escher created a world in which perspective, mathematics and imagination come together. His impossible constructions, transformations and repeating patterns continue to intrigue audiences around the world.

M.C. ESCHER

Fondation Magritte / Standaard Uitgeverij

Belgian Surrealist René Magritte challenged the way we look at everyday objects. Bowler hats, apples and clouds became recurring elements in his visual world. Parastone brings these iconic paintings to life in a series of sculptures and art-inspired gifts.

TOUCHING ART

Parastone translates works of art into tactile 3D replicas, allowing everyone to experience art through touch. Our figurines are little works of art of their own: hand-painted and made to bring a piece of the museum home.

VAN ABBEMUSEUM EXHIBITION
'DWARSVERBANDEN'

EXHIBITION
'BELEEF DEN BOSCH'

Dwarsverbanden at the Van Abbemuseum was the first fully multisensory collection presentation in the Netherlands. Through tactile drawings, three-dimensional tactile objects, Braille, scent interpretations and soundscapes, the museum made art accessible to blind and visually impaired visitors. For the exhibition, Parastone created a tactile relief of Picasso's Buste de femme and other works, allowing the art to be experienced through touch.

Beleef Den Bosch is an exhibition created for blind and visually impaired visitors, exploring how the city, its heritage and its art can be experienced beyond sight. The extraordinary creatures from Hieronymus Bosch's The Garden of Earthly Delights have been brought out of the painting and into three dimensions, allowing visitors to discover Bosch's imaginative world through touch.

René Magritte, Gustav Klimt, Salvador Dalí, M.C. Escher and more... these can all be experienced through touch, making art accessible beyond sight.

★★★★★ Amazing Quality and Material

I bought this for my wife for Christmas and she was over the moon. It is a beautiful piece and small enough to display anywhere in your home. It's also big enough to have it be a feature. I was also impressed with the material and quality.
