CULTIMULCH

QUALITY WORK by TECHMAGRI

Exclusive spring tine CULTIMULCH®

The Techmagri Cultimulch is available in widths of 7.2m & 8.1m mounted and 12.3m trailed. 6 rows of tines ensure excellent clearance at all times and reversible points combine good penetration with low running costs.

Stubbles are harrowed immediately after combining using the Techmagri Cultimulch, to even out straw, encourage weed chit and disturb slug eggs.
