WE CAMP

A scenic view of a rocky coastline. In the foreground, a small boat is anchored in the clear, turquoise water. The surrounding cliffs are rugged and covered with sparse green vegetation. In the background, a hill rises, topped with a small building and a lighthouse. The sky is clear and blue.

We are the new generation of campsites.
Restless and non-conformists, we were born with the aim of
creating an experience where it was possible, enjoying the
natural environment in a sustainable and comfortable way
We bring the hotel experience to the campsite to welcome all
who seek more than just a campsite

WECAMP

FOR YOUR EVENTS...

wecamp is the versatile and flexible destination, with carefully designed spaces and common areas, where you can hold your corporate events, teambuildings, startup experience, filming, presentations, productions, shootings, celebrations or retreats.

A unique experience, in a privileged natural environment, where our spacious and adapted facilities house all the design and comfort so that, more than a glamping, a place to develop group values such as collaboration, motivation and creativity.

WE DREAM

We propose a fairer and more sustainable model of tourism, we believe that simple things hide true luxury and we want to discover it together.

AS GREEN AS POSSIBLE

WE WANT TO
CONTRIBUTE TO A
MORE RESPONSIBLE
ECONOMY THAT
RESPECTS PEOPLE
AND THE PLANET.

That is why we are not only committed to green and energy-efficient buildings, we are also committed to promoting the local economy by prioritising the use of local products and services, and to protecting the environment by actively supporting actions for the conservation and recovery of native flora and fauna.

We promote sustainable tourism development within the framework of the 2030 SDGs, promoted by the United Nations, which we take on as our own challenges.

CERTIFICATIONS OF GOOD PRACTICES

Biosphere:

Guarantee offered by a third-party audited certification aligned with the 17 Sustainable Development Goals and the Paris Agreement against Climate Change through the Global Charter for Sustainable Tourism +20. With a wide presence and the support of international organisations, Biosphere is the most recognised guarantee of authenticity and sustainability in the world.

Starlight:

A certification system that rigorously and scientifically guarantees that certain places meet these quality requirements for their night sky. In addition, it not only technically validates the state of the night sky, but also measures the presence of tourist infrastructures so that astro-tourism can be developed.

Sleep Friendly:

Innovative team in Sleep Medicine with a differential care model that allows them to address medical challenges that have not been covered until now. They understand sleep as a super fundamental aspect of health, give therapeutic value to sleep in patients who have a complex disease and provide an accurate diagnosis and treatment of the sleep disorder.

Bed & Bike:

The Bed&Bike label guarantees that the establishment that obtains it offers appropriate services specifically designed for cycle tourists: overnight stays for one night only, spaces for storing and washing bicycles and for washing and drying equipment, repair kits, balanced menus for cyclists and useful information for cycle tourists, among others.

WECAMP 2025

DESIGN COMFORT ECO-FRIENDLY

OUR ACCOMMODATION
FOLLOWS A PHILOSOPHY OF
MINIMAL INTERVENTION IN
THE ENVIRONMENT,
BLENDING INTO IT, GIVING
PROMINENCE TO THE
EXTERIOR BUT WITHOUT
SACRIFICING COMFORT.

We collaborate with designers, architects and energy efficiency experts, we use and design according to local resources, trying to leave the smallest possible footprint.

We use modern and natural materials, creating cosy, comfortable and versatile accommodation.

We bring hotel standards to campsites: high quality beds, soundproofing, thermal insulation and spacious accommodation.
