Logistics

Initial delivery and relocation of the machine.

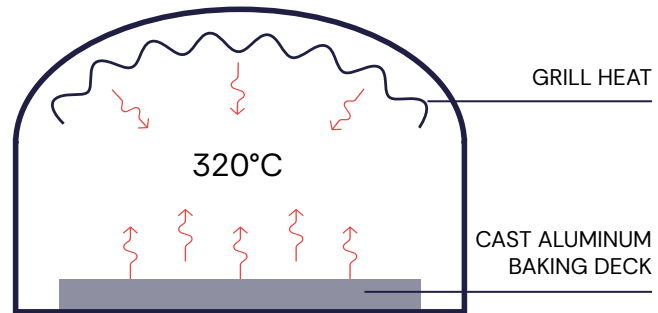

A PIZZA COOKED IN 3 MINUTES AT 320°C

Smart Pizza Julia Tradizione DECK OVEN

This traditional technology guarantees authentic and even cooking of pizzas.

Thanks to its cast aluminium deck, the heat is distributed evenly by direct contact, making it possible to obtain a crispy crust on the outside and a soft texture on the inside.

Cooks in **3 minutes**

A 24/7 online shop to order consumables and spare parts.

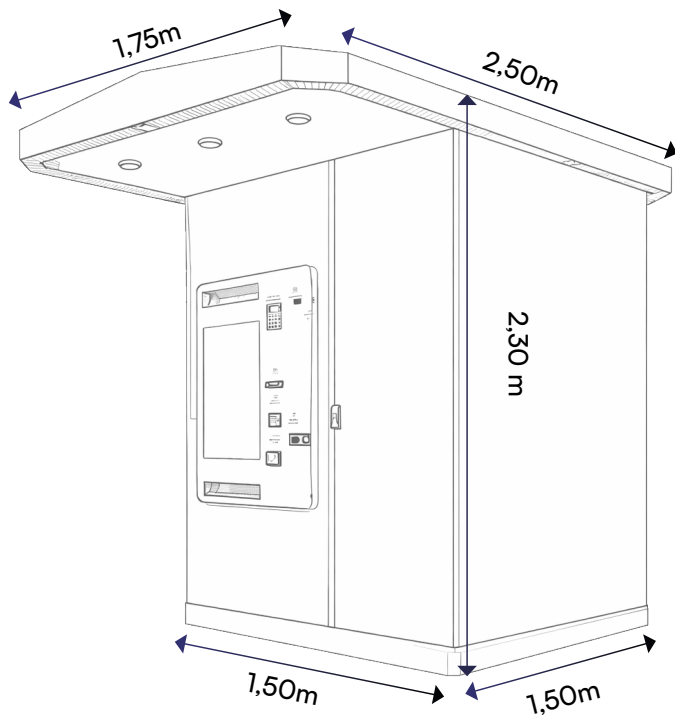

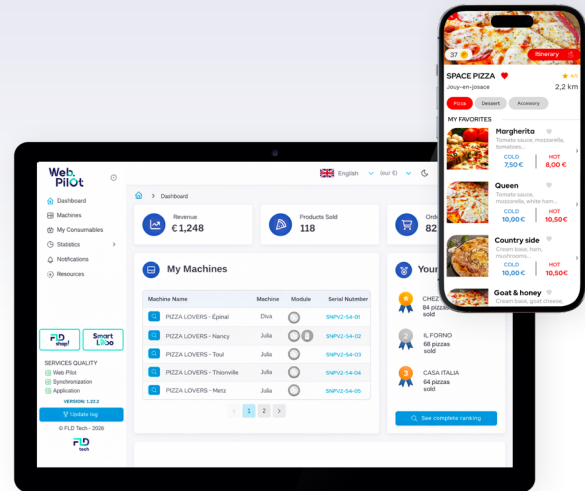

An all-in-one FLD Tech solution

Online software to monitor and optimise your machines in real time:

- Control the vending machine remotely
- Plan and optimise pizza production
- Boost end-customer sales
- Anticipate restocking of consumables
- Analyse performance

A Click & Collect app for your customers
