Redondo Iglesias

Products made in the traditional manner since 1920. We offer a wide range of formats adapting formats and weights to consumer needs and a product that stays fresh.

Since 1920

Our origins have shaped the history of Redondo Iglesias: a family business that began its journey in 1920 in the province of Salamanca. Since then, time, craftsmanship and know-how are still the base of our unchanged spirit.

That is why all our Ibérico pigs are raised as they used to: in freedom, with a natural and balanced diet, and in the finest pastures. In our aging cellars, we also carry out an extended drying & natural process, just as it was done in the past, to ensure an optimal result.

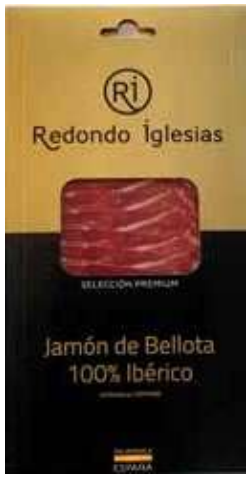

Since 1920, many things have changed, but our essence and dedication to each and every one of our products remains the same.

Premium Selection Line

DESCRIPTION	CODE	WEIGHT
