PRODUCTION CAPABILITIES

- MF Electric melting 2 & 4 tons.
- Semi-mechanized molding line :
 - ↳ Dimensions (mm) 1 400x 1 200x(2x500).
 - ↳ Weight range from 10 to 400 kg.
- Hand Molding:
 - ↳ Dimensions (mm) 1000x 1000 to 4000x3200.
 - ↳ Weight range from 400 to 5000 kg.
- Core Shop :
 - ↳ 35 liters Machine.
 - ↳ 80 liters Machine.

QUALITY & FINISHING

- Painting booth.
- 200kN Tensile test machine.
- Shot blasting machines & Deburring booth.
- Impact test - Hardness- Metallographic Analysis.
- FARO Arm & Laser Probe—POLYWORKS.
- Ultrasound-Dye Penetrant, Magnetic Particles.
- COFREND II certified controller.
- Sand Laboratory.
- SOLIDWORKS CAD.

METALS & ALLOYS

- Parts from 10kg to 5 000 kg
- 35 Cast iron & Steel grades
- GJL-GJS-SiMo-NiResist-Austenitic-NiHard-White Cast Iron.
- Heat-resistant steels.

COMPANY OVERVIEW

Fonderie GIROUD is a specialist in the production of complex, high value-added cast parts made of cast iron or steel. Products range from a few kilograms up to 5tons. Parts can be delivered as raw castings or fully machined and inspected.

100% French
Manufacturing
