

*'When we reflect on future generations to come, caring for nature
and practicing sustainability becomes a matter of moral duty...'*
Hamadi Mensi

Family owned and operated

ETC group or Entreprise Tunisienne de Confection, is a family business created by Mr Hammadi Mensi, established since 1987 in Jammel, where it compromises 6 big production units.

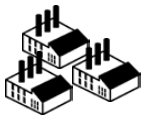

The group is specialized in garments manufacturing and special treatments.

Due to its vertical integration and manufacturing experience in textile industry ETC group is now among the highest ranking performers in Tunisia.

Full spectrum of services

Get everything you need made under one roof.
Save your time and effort from dealing with multiple suppliers.

PATTERN MAKING

Our pattern makers have an eye for quality and keen attention to details. All styles are precisely made, checked for quality and guaranteed to meet our client's sizing measurements.

RESEARCH AND DEVELOPMENT

ETC's R&D team anticipate seasonal trends offering our clients access to our seasonal collections.

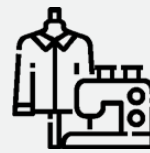

FABRIC SOURCING

We are committed to sourcing the fabrics of your choice while meeting the highest-level quality. Our fabric suppliers overseas network, allows us to accept larger projects at reduced prices, and cater to more clothing brands.

CUTTING

Given the variety of types of fabric that we handle, we make sure to carry out the cutting phase taking all precautions.

STITCHING

Our stitching lines are operated by highly qualified employees with an average of 20 years of experience. With all these elements, our apparel production has the capacity and skills to service the requirements of high-end fashion, and high-volume clients quickly with efficiency.

WASHING, DYEING & FINISHING

Indeed, due to an advanced machine park and a very active research and development department, ETC groupe treats all kinds of fabrics according to the appropriate methods.

Meaningful innovations

At ETC group we invest strategically in the most advanced technologies to produce superior products in a hybrid/collaborative methods, and in less time for our clients while considering the impact on the environment.
