

From DISTINCTIVE FABRICS - to Responsible MADE in ITALY Production

About Us

Responsible luxury fabrics and garment development from the Lombardy Textile District.

ARNIA TEXTILE FASHION is an Italian textile converter, production partner and Type B non-profit social cooperative based in the Lombardy Textile District — Varese, Como and Milan.

We develop premium fabrics and coordinate capsule collection production for established and emerging fashion brands, combining Italian textile know-how, industrial discipline and measurable ESG performance.

Key pillars

- Luxury jacquards, embroidery, prints and textile novelties
- Short, selected and monitored Lombardy supply chain
- Type B non-profit social cooperative
- Latest published ESG Assessment: 76/100 (2024)
- 2025 assessment pending publication

What we do

Textile development & sourcing

- Fancy jacquards · Fil coupé · Devoré · Embroidery · Plissé;
- Digital & screen printing on silk, cotton, viscose, linen, recycled and conventional polyester;
- Special finishes and surface effects with selected Lombardy mills.

Collection support & production

- Fabric R&D starting from your brief and target price;
- Cut & Sew projects may start from 20 pieces per style, subject to product category and technical feasibility.
- Sampling → Industrialisation → Quality Control → Production Oversight
- Coordination with your pattern-makers and garment makers.

Textile Collections - Jacquards, fil coupé, embroidery, prints, devoré, plissé and special surface effects.

Fabric Sourcing & Stock-Supported Bases - Development from a creative brief, physical swatch or archive reference, plus selected running bases and colour-card options, subject to current availability.

Sustainability, Traceability & Brand Reputation - Certified material pathways, per-lot traceability, supply-chain due diligence and project-specific compliance documentation.

Cut & Sew - Sampling, industrialisation and capsule production from 20 pieces per style, subject to product category and technical feasibility.

Fashion Startup Lab & Project Management - Collection planning, sourcing strategy, product-development roadmap and supplier coordination from concept to production.

Lombardy Textile District : Varese · Como · Milan

Across a concentrated regional ecosystem, ARNIA coordinates long-established mills, specialised workshops and selected production partners, including certified operators where applicable:

- **Varese** — cotton weaving, dyeing and industrial embroidery
- **Como** — silk, jacquards, printing and finishing
- **Milan** — design, prototyping, pattern development and garment production

ARNIA TEXTILE FASHION helps fashion brands connect creative vision, textile feasibility, traceability and Made in Italy production through one coordinated Lombardy-based partnership.

Send us your project brief to identify the most realistic route for your next collection.

Why Brands Choose ARNIA TEXTILE FASHION

- **Reliability** — Our Team combines more than 100 years of textile experience and works to identify and reduce development and production risks from sampling to bulk.
- **Partnership** — Technical and commercial guidance, clear specifications and responsive communication.
- **Local & accountable** — Most of our production network is based in Lombardy. We coordinate selected and monitored partners through due diligence, quality oversight and project-specific traceability.
- **Craftsmanship & compliance** — Italian textile know-how supported by quality control, documentation and alignment with international standards and brand requirements.
- **Sustainability with substance** — ESG Assessment 2024: 76/100 (E 66 · S 84 · G 88), supported by certified material pathways, per-lot documentation and transparent certification boundaries.

Impact & Values

- ARNIA is a non-profit social cooperative: inclusion and ethics are built into our industrial model.
- In 2025, 100% of ARNIA TEXTILE FASHION's internal employees participated in its inclusive employment model; the majority came from disadvantaged backgrounds.
- Circular projects that transform textile waste into new materials; long-term partnerships with local stakeholders to support the community.

We believe Luxury can and must coexist with Environmental Responsibility and Human Dignity.

Certificate ICILA-COC-004751

Certification and claim applicability are confirmed article by article and lot by lot. Technical MOQs, Chain of Custody and Transaction Certificate requirements may apply.

Start Your Textile or Garment Project with ARNIA

From fabric brief to responsible Made in Italy production - tell us what you are developing.

To assess your project correctly, please complete our Project Brief with the product category, expected quantities or metres, current development stage, target timing, price architecture and any certification or traceability requirements.

Our Team will review your information & identify your realistic route

👉 **COMPLETE THE PROJECT BRIEF:**
<https://madeinitaly.social/textile/>:

- Textile Collections
- Fabric Sourcing & Stock-Supported Bases
- Sustainability, Traceability & Brand Reputation
- Cut & Sew
- Fashion Startup Lab & Project Management

Certification and marketing claims depend on the material, article, production lot, technical MOQ, Chain of Custody and applicable standard.

Availability, feasibility, timing, pricing and certification pathways are confirmed project by project after technical review.
