

An aerial photograph of the ocean. In the upper center, a whale is breaching the surface, creating a splash. Below the whale, a large, rectangular piece of clear plastic debris, possibly a shipping container or a large bottle, floats on the water. The water is a deep teal color, and the plastic is transparent, showing internal structures. The text "WE ARE" is written in white, uppercase letters on a small white rectangular background, positioned to the left of the whale's breach.

WE ARE

SEAQUAL INITIATIVE

TOGETHER FOR A CLEAN OCEAN

A hand holds a large spool of teal-colored yarn. The background is a beach scene with a clear blue sky and a dark, pebbly shore. A clear plastic bottle lies on the shore, partially submerged in the water. A wavy line separates the sky from the water, and a thin strand of teal yarn extends from the spool across the water.
