SISP

GEARBOXES

PRESENTATION

SISP-GEARBOXES is an independent company founded in 1964 in France. Specialist in mechanical transmission, the company designs and manufactures gearboxes for various sectors of activity such as agriculture, industry, food-processing, railway, public works.

With an active and constant investment, SISP-GEARBOXES has a production facility at the cutting edge of technology. Its production unit of 4,500 m² employs around forty peoples and today has more than 30 CNC machines.

BUSINESS SECTOR

Originally specialized on the design and the manufacturing of mechanical transmission on the agricultural activity, the SISP company was able to take advantage of his experience to open then on other business sectors. Today, the quality of his products and services make it a leading company in the market.

Few examples of application of different business sectors: manure spreader, harvester, topper, conveyor, wrapping machine, boat transmission, soil stabilizer.

GEARBOXES

PRODUCT RANGE

Our products are made up of gearboxes, mechanical or hydraulic reducers, mono or multi-speed, reversers, speed multipliers and spreading back units. We are specialized in the cutting of gear and especially in spiral bevel cutting. We have numerous and various fields of application.

90° gearbox, specific gearbox:

Parallel shafts gearbox, hydraulic multiplier:

Set of 3 gearboxes:

Monobloc gearbox (2 outputs):

Monobloc gearbox (4 outputs):

Hydraulic reducer:

Various (couplings, spreading back...):

MACHINERY PARK

Our whole manufacturing is produced in our factory with recent and efficient equipment, by a qualified and competent staff.

Below a presentation of some CNC by categories.

Horizontal and vertical machining center:

MORI SEIKI MH630, SH630, NH630, NHX8000, SEIKI AKIRA V4.5

Horizontal lathe, robotic lathe bi-pin:

CMZ TC35, TA25, TD30YS, MURATEC HW 200

Cutting machine, broaching machine:

PFAUTER P300, VARINELLI, GHO, LIEBHERR LC300, OERLIKON C50

Internal and external grinding machine:

STUDER S33 (x4)
