THA COMPANY

Specialised in the manufacturing of attachments for more than 27 years, MAGSI is a growing company which provides a wide range of standard and customised implements for agriculture, construction and grounds care. MAGSI can be defined as a leading full-liner attachments manufacturer in Europe. With its experience, MAGSI has a strong knowledge in the design, manufacturing and selling of implements such as grab buckets, grain buckets, manure forks, bale spikes...

90 people work in the production plant and 50 work in the offices, including 3 employees in the export department. It also has 2 design and R&D departments (one for agriculture and grounds care and the other for construction and industry). **All this contributes to the manufacture of 11,000 tools per year on a surface area of 18 200 m².**

CUSTOMISED ADVICES

At MAGSI, we recommend the right tool while maintaining a high level of security.

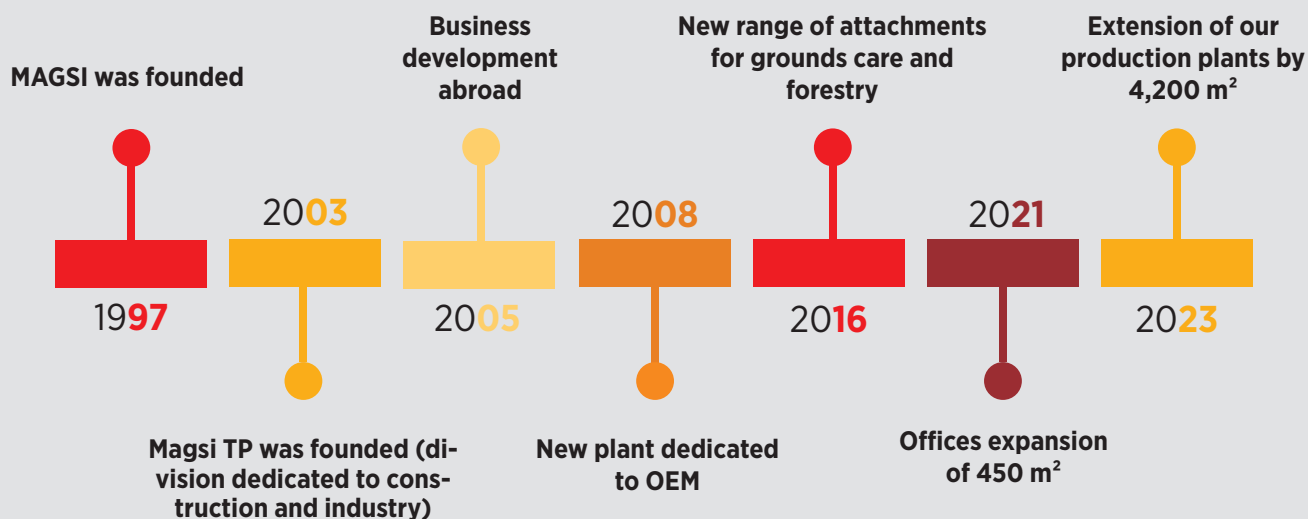

Thanks to our design and R&D departments, MAGSI is also able to create custom-made attachments on request.

HERSTELLUNG

Our factories are equipped with the most modern manufacturing technology and processes: laser cutting, water jet cutting, oxy-cutting, dough sheeters, shears, press brakes and welding robots.

Every day, our teams are working hard to design, manufacture and carry out reliable quality controls.

ABOUT US

THE COMPANY

With all these years of experience in the design and manufacture of implements, MAGSI is proud to be represented with a **large dealer network in France and abroad**. Our recognised expertise enables us to partner with many machinery manufacturers as an OEM supplier.

Our ranges of attachments include around **800 000 part numbers for and 700 different brackets**.

INNOVATION

MAGSI is constantly developing new products to adapt to the constant changes in the different markets.

Our research and development department is fully committed to work on innovative solutions and contribute to progress in our various business departments.

Galvanized rear weight

360° box tipper

Front box tipper

RANGE OF **STANDARD AND CUSTOMISED** ATTACHMENTS

OUR AGRICULTURAL range

Log grab

Rotating wood clamp

Log splitter

Branches grab

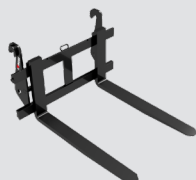

Sugar cane grab

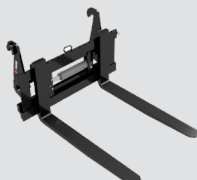

3-Point adapter for telehandler

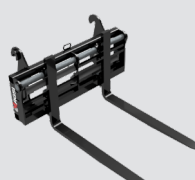

Carriage without pallet fork

Pallet fork carriage

Side-shift pallet fork carriage

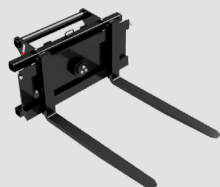

Hydraulic sliding pallet fork carriage

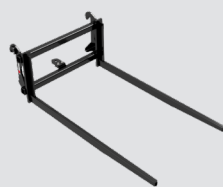

Transmags

Floating fork carriage

Carriage for corrective leveling

Pallet fork carriage for poultry containers

Pallet fork hook

Bag lifter

Big bag lifter 3 or 4 hooks

Lifting hook on carriage

Hydraulic winch

Fly jib with hook

Fly jib with hydraulic winch

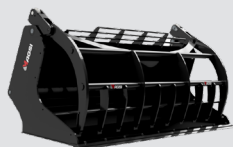

Crane jib

Crane jib on pallet forks

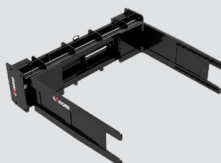

Big bag filler bucket

Waste rehandling grab bucket

Rehandling bucket

Bale grab for waste rehandling

Ampliroll hook

Sweeper

Pot clamp

Multi-fonction brush cutter

Hedge trimmer

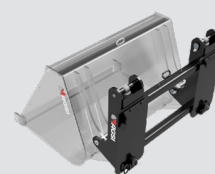

Weeding brush

Tree trimmer

Flail mower

Hydraulic bracket

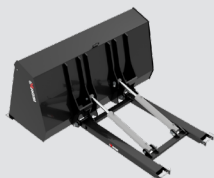

RANGE OF **STANDARD AND CUSTOMISED** ATTACHMENTS

OUR AGRICULTURAL range

Hydraulic chassis on
pallet forks

Bucket on hydraulic
chassis

Waste rehandling
bucket

Calibrated bucket

Earth bucket

High-volume
bucket

High tip bucket

Snow blade

Salt spreader

SPECIFIC COLOR

The whole range is painted in black. Other colors upon request.

CUSTOM BRANDING

Customise your attachments with the name or logo of your farm or dealer!

CUSTOMISE YOUR ATTACHMENT

Our products are even more customisable with all types of forms or symbols, for instance the emblem of a region or country.

CUSTOMISATION

Special IMPLEMENTS

MAGSI's know-how enables us to meet the expectations of customers who have specific requirements: particular use, XXL width, old machines, etc. Our engineering department studies the feasibility of each project, while respecting safety and machinery regulation.

HERMETIC GRAIN BUCKET

Loading and protecting while handling grain during wet weather

BEETROOT BUCKET

Loading, cleaning and keeping beetroot intact

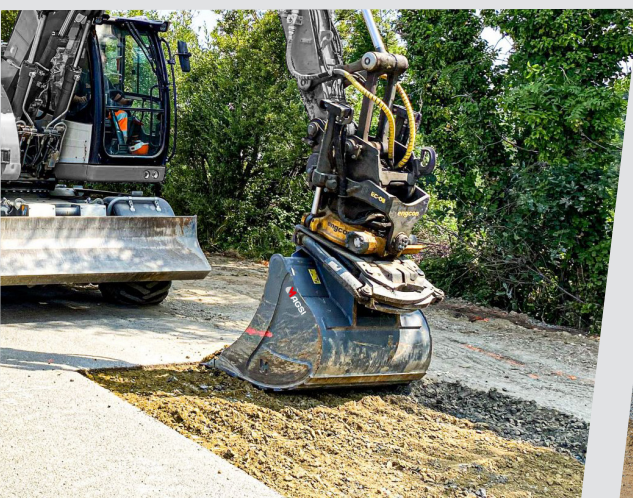

BUCKET WITH TRAPDOOR

Filling trailers of all dimensions with dry fertilizer

INDUSTRY & construction

We supply the right implements for any type of construction project in the building, industry, waste rehandling, grounds care, forestry, mining and demolition sectors.

We study each request and equip **all commercial brands and types of machines**: loaders, excavators, forklifts, skid steers, etc. in accordance with current regulations.
