LANDA, Your Harvest Specialist since 1983

The success story of LANDA

Created in 1983, LANDA has been serving harvesting professionals all over the world for **more than 40 years**, creating an efficient network with strong and long term partnerships. Our company offers a wide range of spare parts for wear and maintenance for all agricultural harvesting machinery, including forage harvesters, combines, balers, mowers and many others.

Our aim is to provide our customers quality products, within a reasonable budget, adapted to their machines. Most of our parts are made locally in France, following our quality standards.

Landa supplies alternative parts that meet at least original equipment specifications or better. To provide the best service to our distributors, we have **3 warehouses** in France with more than **8 000 references** available in stock all year long, even out of season.

Our mission

To offer an alternative range of wearing parts for agricultural harvesting equipment of equivalent or higher quality than the original range at an attractive price in France and abroad.

LANDA is focused on Quality.

To reach the quality level we aim, all parts made by LANDA are studied, developed and checked by our experts with high quality scanner.

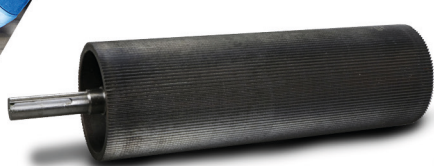

LANDA's Know-how

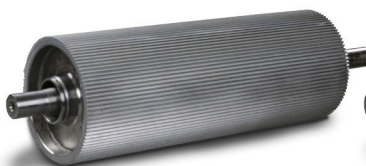

To offer quality adaptable parts, LANDA has been developing a strong expertise in study and methods but also strong partnership with manufacturers.

Forage harvester parts, where the story started!

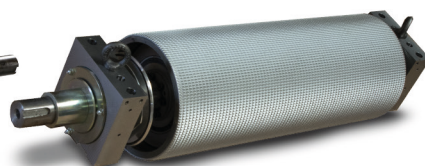

Corn cracker rollers, LANDA's speciality with the widest range in Europe.
Made in France. Wide range of technical specifications:

Standard (HFT)

Chrome plated (+ HFT)

Complete

Technical characteristics

Ø 196 à 250,
80 to 145 teeth,
straight, saw tooth, helical shape.

What makes our rollers different

All LANDA rollers are receiving a high frequency treatment (HFT) which allows them to last longer.

For extreme conditions, LANDA is offering a chrome plating treatment on top of the standard high frequency treatment.

This additional treatment ensure customers longtime durability even in heavy crops

Combine harvester, a logic continuation

As harvest specialist, LANDA propose a wide range of wearing parts for your combine harvester, combine headers, whatever the brand.

You will find all you need to maintain your machine in perfect condition such as knives, double fingers, concave, sieves, crop lifters and much more.

LANDA is the only supplier of alternative combine header protection skids available with complete kit. Thanks to LANDA, you will get higher hardness on the skids to protect your header in durability.

Hay and forage machine, the next chapter

To meet the growing needs of its customers, LANDA is expanding its hay making range. After round and square balers, Landa now offers wearing parts for mower conditioners, rakes, tedders, selfloading forage wagons, etc.

Standard product to complete the Landa offer

LANDA has extended its range to include so-called « standardised » parts including belts, chains, bearings, fasteners and, of course, the various filters used on haymaking, harvesting and silage-making machinery as well as tractors. These items are selected from original equipment manufacturers.

LANDA international purchasing team works hard every day to offer you a top-quality alternative part at the best price. Do not hesitate to contact us.

High quality offer in belts, chains and bearing

Belts and chains for all harvesting machines

Standard and specific bearings & sprockets
