LUCI-Flow

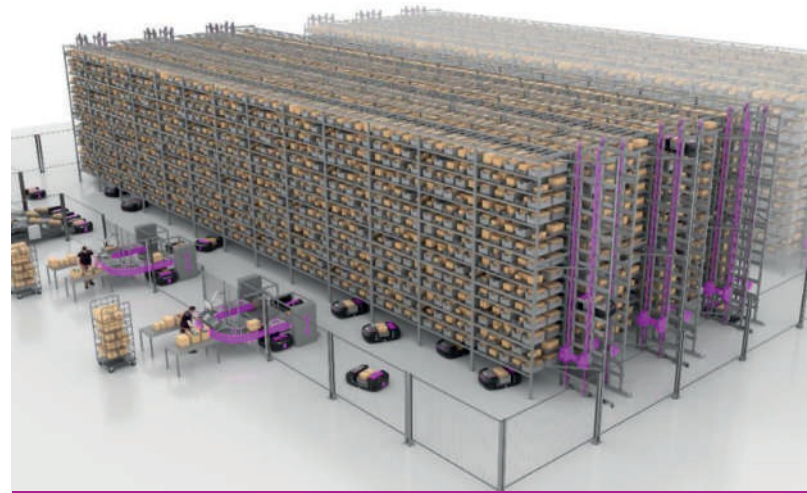

All-in-one automated storage solution
to boost your order preparation

YOUR BUSINESS NEVER STOPS

E-commerce, retail, food industry,
manufacturing... logistics performance
drives success.

Lack of space, limited flow flexibility, or costly equipment decisions shouldn't hold your operation back.

Fives is redefining automated storage standards with a high-throughput, all-in-one, fully scalable solution that leverages full height and available volume.

MASTERING THE UNEXPECTED

LUCI-Flow adapts. It evolves. It unifies your flows, unlocks your space, and synchronizes your resources. You remain free to design your logistics exactly the way you choose.

LUCI-Flow delivers operational continuity
and the agility required
to meet your commitments!

LUCI-FLOW, THE HIGH-THROUGHPUT, ALL-IN-ONE, FULLY CUSTOMIZABLE SOLUTION

ZERO COMPLEXITY

A single solution that simplifies
case picking and piece picking
operations

All-in-one Solution

- Simplify your process with a multi-function storage space: Buffer/Sorter/Sequencer

Omnichannel Solution

- Direct inbound cardboard boxes without additional handling
- Up to 4-deep storage capacity

ZERO LIMIT

We unlock the full potential
of your warehouse by optimizing
every cubic foot without constraint.

No height limit

- Make the most of vertical space in warehouses

Modular and scalable

- Increase your storage or throughput capacity without interrupting production

Fully flexible configuration

- Operate on freely positionable order preparation stations

Flexible design

- Interconnect multiple independent storage volumes

ZERO FRICTION

Smart orchestration
for total efficiency
and controlled investment

Just-in-Time

- Prepare your orders "just-in-time" thanks to the system's high responsiveness

Peace of mind

- Benefit from a strong system redundancy for uninterrupted process flow

High throughput

- Reach your goals with optimal, centralized orchestration of robot flows

Quick and easy access

- Access stock in less than two minutes, without using a forklift

Easy maintenance

- Perform maintenance without disrupting the active robot fleet

ONE SINGLE SYSTEM WHERE EVERYTHING FLOWS

LUCI-Flow intelligently orchestrates your flows thanks to its key components:

✓ Software

Software suite for Fleet management and centralized control

✓ Robots

Autonomous Mobile Robots (AMRs) suitable for a variety of loads

✓ Storage

High-density open racks (multi-depth) and high-throughput escalators

✓ Interface

Feeding the preparation station, conveyor or other logistics points

NOTHING STOPS

Your performance
Your growth
Your production
