About Us

İzmir Brode Tekstil was **founded in 1984** and is one of the first embroidery companies in Turkey. Our facility, which started operating as a workshop supplying lace to underwear companies in the years it was founded, has become an integrated facility with a pattern studio, sample production line, yarn twisting facility, fabric trimming, fixing and state-of-the-art embroidery machines and equipment today.

Our company has a wide pattern collection suitable for the demands of the market and the fashion of the day. Our company supplies **embroidery, guipure, lace and embroidery type products to underwear, home textile, wedding dress and ready-to-wear manufacturers** with the Kupon and Fiducia brands registered since 1998.

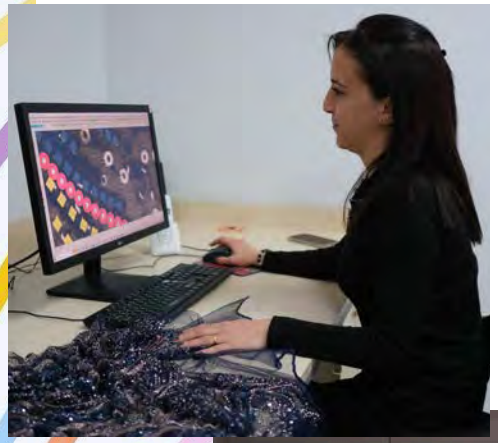

İzmir Brode Tekstil, which values innovations, has a different and more creative product range than the companies in its sector with its unique patterns and fashion-creating structure, aims to bring **the third dimension to traditional embroidery with its new cordonnet, guipure and tulle lace** embroidery collection and to carry Turkish Textile to a higher quality level.

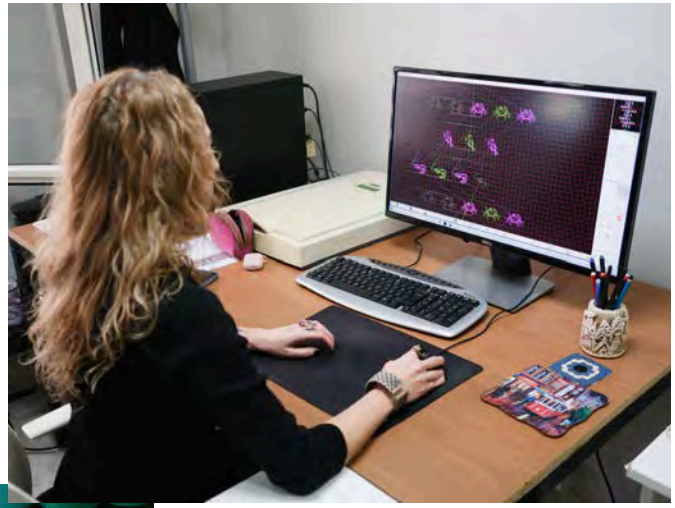

Our Design & Production Process

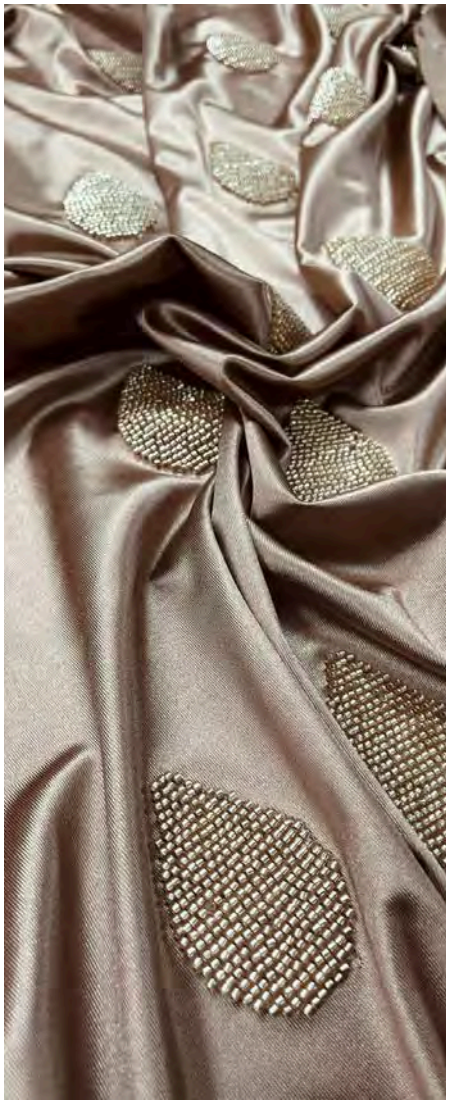

Collection Development and Pattern Design

Each season, we create new collections tailored to our customers' requirements, aligning with popular colors and concepts. Our process begins with identifying the latest color trends and concepts. Subsequently, design punch work is carried out, and the finalized designs are produced using our sample machines. The samples are then carefully prepared by our sample department during the swatch preparation phase to be presented to our customers.

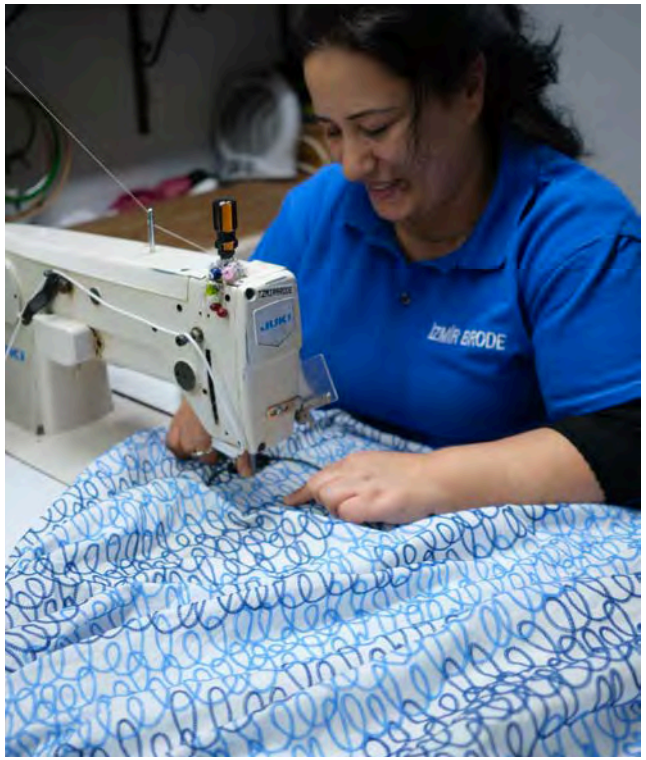

Exhibition and Production

The designs meticulously produced on our sample machines are presented to our customers through carefully prepared swatches. We share our latest collections through textile shows and marketing channels, responding to the unique needs of each customer. Our fabrics, after passing through quality control, are securely delivered to your address. Throughout this process, which blends design with quality, we strive to offer a personal touch at every stage.

Manufacturer of Leader Brands

We take pride in delivering the highest standards of quality to the world's leading fashion brands. Our dedication to detail and aesthetic excellence ensures that we meet and exceed customer expectations at every stage of production. Our products are meticulously designed and crafted in state-of-the-art facilities, combining tradition with modern innovation.

Our production portfolio includes not only our seasonal collections but also custom designs tailored to our clients' specific needs. Pattern swatches and reproduction samples are swiftly produced on our 5-meter sample belt and presented to our customers for approval. By utilizing the finest and most unique threads, we achieve superior results in both aesthetics and durability.

With innovative collections and customer-focused solutions every season, we continue to make a difference in the fashion world. As a key player in embroidery and yarn processing, İzmir Brode adds value to global brands by blending creativity and quality, solidifying its position as a leader in the industry.

Exhibitions

We take pride in presenting our innovative designs and exceptional quality at prestigious events like Texhibition Istanbul, Première Vision Paris, and the Textile Salon. These exhibitions connect us with global leaders and showcase our craftsmanship, seasonal collections, and custom embroidery solutions on an international stage.

Texhibition Istanbul bridges local expertise with global trends, while Première Vision Paris places us at the heart of the fashion industry. At the Textile Salon, we highlight our bespoke designs tailored to the needs of international clients.

By participating in these renowned exhibitions, İzmir Brode strengthens its position as a leader in embroidery and inspires the fashion world with cutting-edge designs and unmatched quality. Each event reinforces our vision and role as a trusted partner for the world's top fashion brands.

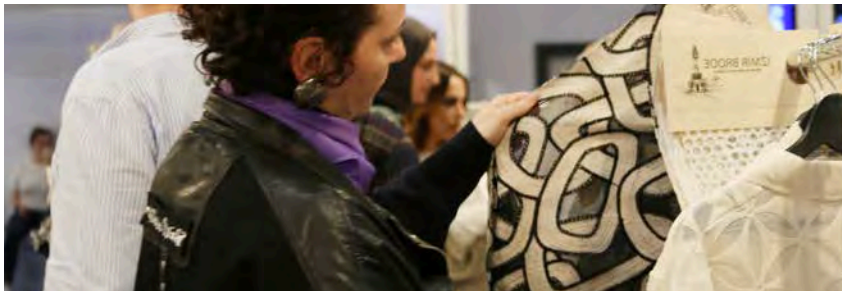

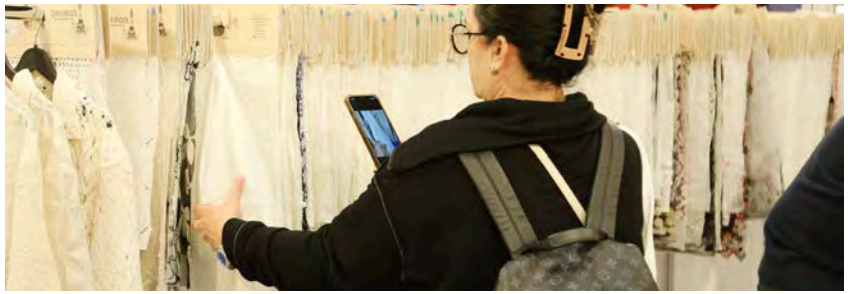

İZMİR BRODE

Sustainable Production

Sustainable textile production reduces environmental impacts while supporting ethical practices and contributing to a circular economy. The use of organic materials, recycling, water conservation, and waste management help protect natural resources and ensure fair production processes.

Our certifications, including GOTS, GRS, Better Cotton Initiative, Join Life, and Inditex, demonstrate that our products meet eco-friendly, high-quality, and ethical standards. With a commitment to sustainable production, we continue to create value for both the environment and society.
