Free of alcohol, but with all the flavor, aroma and character of the grape variety verdejo.

Disfrutand0,0 is the result of a very thorough dealcoholization process of the wine made from the Verdejo grape variety produced by Viñas Familia Gil. Throughout the entire process, at a new facility that was specifically designed for this within our own winery, a single goal has been sought: Crafting a high-quality white wine, alcohol-free but with all the flavour, aroma and unique character of the Verdejo wine.

Low calorie!
