

OUR STORY

4 GENERATIONS, ALWAYS EVOLVING

Since the 1960s, we have been cultivating our vineyards and making our wines with the same deep-rooted respect for our terroir. Today, the fourth generation is fully involved in the winery, with Morgane gradually joining Olivier to continue writing the Domaine Kirmann story.

GROWING, PRESERVING, EXPERIMENTING

Over the years, our range has evolved, driven by a constant desire to craft wines that respect nature and our traditions. Classic Alsatian grape varieties, Old Vines, Late Harvest wines, Crémants, natural wines and alcohol-free wines all come together under the same philosophy, reflecting our values and the way we work.

ALCOHOL-FREE, REIMAGINED

This range was born from our desire to bring our winemaking expertise to alcohol-free drinks, with no added flavours and, above all, true to the fruit. A new way for everyone to enjoy the wine experience, embracing inclusivity while respecting the raw ingredients.

- O/K, a delicate and fruity dealcoholized wine.
- Pépille, a sparkling dealcoholized wine, awarded two international medals this year!
- Grape juice, a light blend of two grape varieties, with no added sugar, simply pressed.
- And our latest creation: a sparkling grape drink, the very first Kirmann soda!

Because we love to experiment without losing touch with our roots, all our new creations, with or without alcohol, are guided by the same values: respect for the environment, the fruit and our heritage.
