Infovrac

Revue de manutention, stockage et traitement des produits en vrac

EDITORIAL PROGRAM 2027

INFOVRAC magazine is recognized by the bulk industry as the reference in the field of technical information.

Multi-sectoral review, INFOVRAC reaches out to all decision-makers and specifiers regarding bulk material handling, storage, processing and transportation investments in companies in many sectors.

The nominative and qualified diffusion of INFOVRAC, in constant progression, is international: 25% of readers are based abroad in more than 70 countries (European Union, Maghreb, Francophone Africa, United States, South America, etc.)
