THE ART OF GATHERING

The Art of Gathering

Reimagined from one of Casa Branca's ever-popular prints, the pattern-drenched assortment of hand-lacquered goods features a fresh take on traditional Indian paisley in three classic colorways for maximum versatility.

SRINAGAR DREAMS

The collaboration between HestiaLiving and esteemed designer Alessandra Branca stems from a kindred sense of family traditions and tablescapes as a love language.

The debut collection, Srinagar Dreams, reflects their shared passion for heirloom pieces that harken back to the ritual of being home among family and friends.

Exquisitely crafted with natural tree lacquer in Northern Vietnam using time-honored techniques, the lacquering process entails 20 meticulous stages. The collection is a celebration of artisanship, inspired by exquisite forms, cultural traditions, and the enduring beauty of handmade objects.
