This richly layered collection balances the sophistication of natural fibres with the depth of global influence. Ikats, Tuareg motifs, rainforest forms and abstract landscapes are reimagined through a contemporary lens as printed silks, embroidered linens and jacquard weaves. Wool, alpaca and silk fibres lend softness and sculptural richness to the fabrics, while abaca, banana leaf and water hyacinth introduce organic texture and tactility to new natural wallcoverings. Anchored by mineral and earthy tones, the collection embodies understated luxury and timeless sophistication across plains, semi plains and decorative designs.
