ECOLOGY ✓

Care for the environment without sacrificing comfort. By choosing Voltmax solutions, you reduce CO₂ emissions and actively contribute to building a greener future for the next generations.

COMFORT ✓

Your home becomes the perfect place to live. Enjoy the ideal temperature all year round. Our systems operate quietly and efficiently, giving you full control over your energy consumption.

SAVINGS ✓

Lower your electricity and heating bills with photovoltaics, heat pumps and thermal modernization. Voltmax solutions can help you reduce energy costs by up to 70%.

SUSTAINABILITY ✓

Intelligent energy management means less waste, cleaner air and a healthier environment for everyone. Protect natural resources and support biodiversity.

Renewable Energy, Brighter Future

Future-ready energy solutions tailored to Luxembourg homes and businesses.

Subsidies

Did you know?

Homeowners in Luxembourg can benefit from attractive government subsidies for:

- Solar panels (photovoltaic systems)
- Heat pumps
- Home renovation and energy upgrades
- Electric vehicle charging stations

Reduce your energy bills, increase your home's value, and invest in a sustainable future with financial support from the state.

House Renovation

- ✓ Roof replacement
- ✓ Isolation
- ✓ Windows & Doors
- ✓ Heating

Alternative Energy Sources

Photovoltaic

Choose solar energy and take full control of your electricity. Generate clean power, boost system efficiency, and start saving real money on your energy bills.

Solar Roofs

A complete new roof with integrated photovoltaics. Full performance. Timeless aesthetics. Upgrade to a new roof that generates energy.

Energy Storage

Use the energy you produce yourself and effectively lower your electricity bills. Gain greater energy independence and achieve even bigger savings.

EV Chargers

Power your electric vehicle with a reliable home EV charger. Charge faster, save money and enjoy full control over your energy use.

Heat Pumps

Save on heating with modern, eco friendly heat pumps. We provide installation and expert support tailored to your needs.
