STRUCTURED PROCESSES, EMPOWERED PRODUCTION!

When everything is structured, everything becomes clear, precise and reliable. Processes align, data quality improves, and teams move faster without friction. **Divalto industry**, an ERP designed for small and mid-sized manufacturers, structures and optimises your entire value chain. Control your operations end to end, secure every critical step, and

turn operational excellence into a real competitive advantage. The result: consistent quality, controlled costs, increased throughput, and sustainable performance. That discipline, applied day after day, is what makes your performance truly **"iconic"**.

AN ERP

BUILT FOR MANUFACTURING CHALLENGES

DESIGNED TO SUPPORT GROWTH

As your product references multiply and your lead times tighten, complexity increases across your supply chain.

You operate in multi-site, multi-company, and often multilingual environments yet you still need visibility, control, and performance.

Divalto industry gives you full visibility across your operations and improves productivity by optimising resources while meeting the highest standards of quality and traceability.

CONTROL LEAD TIMES AND PRODUCTION COSTS

Whether you operate make-to-order, make-to-stock, or engineer-to-order processes, improving competitiveness is critical.

In a global and uncertain environment, digital transformation becomes a key lever for agility, innovation, and cost control.

Divalto industry enables precise management of your operations and business processes, ensuring reliable industrial and financial control across small, medium, and large production runs.

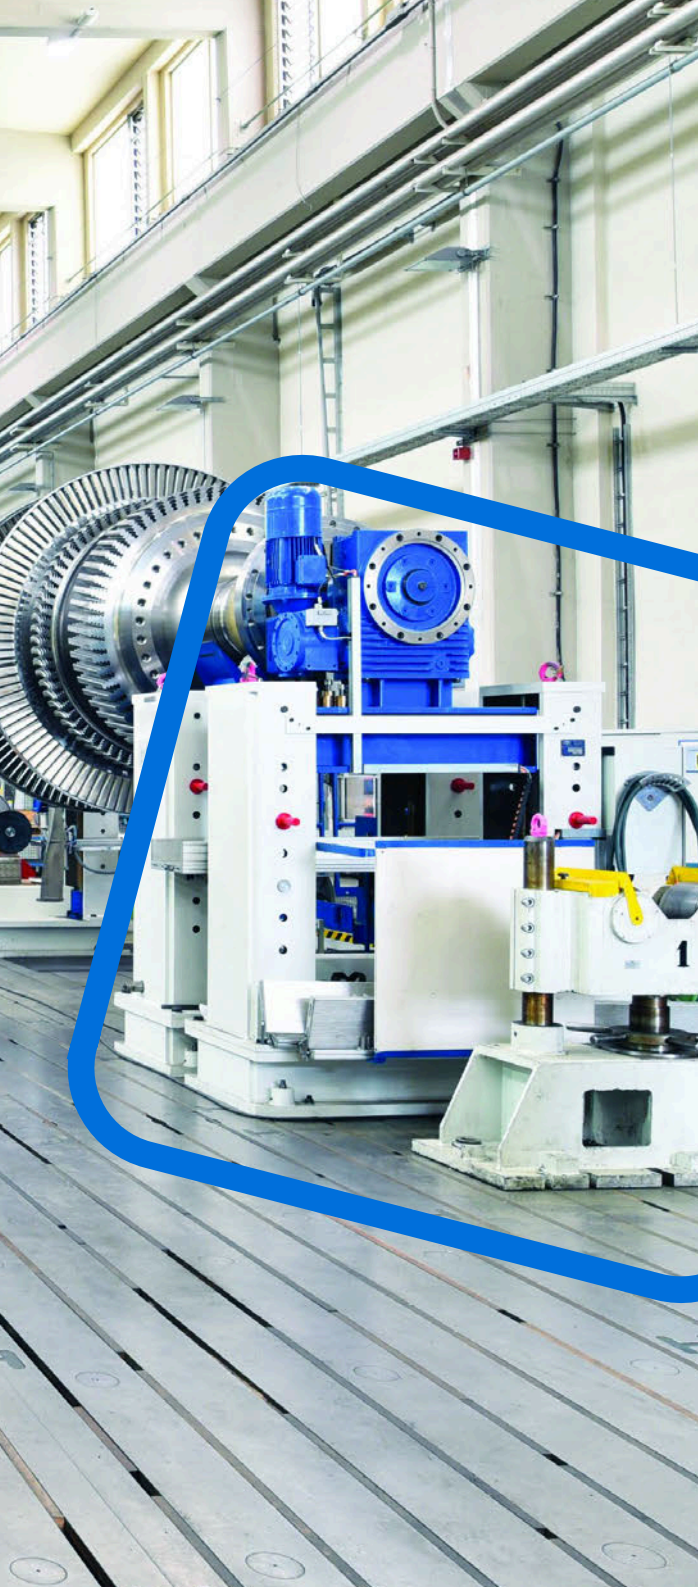

MAKE FASTER, BETTER DECISIONS

Centralise your data to:

- produce accurate quotes
- efficiently plan production orders
- manage inventory and subcontracting
- track after-sales service
- monitor profitability in real time

Quickly identify deviations and take corrective action.

Divalto industry
delivers a reliable
foundation to control
productivity, lead
times, priorities and
profitability.

AN ERP

THAT MAKES A DIFFERENCE EVERY DAY, WITH BUILT-IN AI

ADVANCED OPERATIONAL CONTROL

Finance and production are fully integrated, enabling advanced analytical management. From the quotation stage, you can simulate margins based on actual or weighted average cost

On the shop floor:

- time tracking and material consumption are fully reliable
- industrial KPIs (OEE, service rate, quality KPIs) and financial KPIs are tracked in real time
- cost centre-based management provides detailed visibility

With up to four analytical dimensions and four customisable sub-dimensions, you can reflect your exact operational reality.

Flexible dashboards and customisable widgets allow you to monitor performance your way.

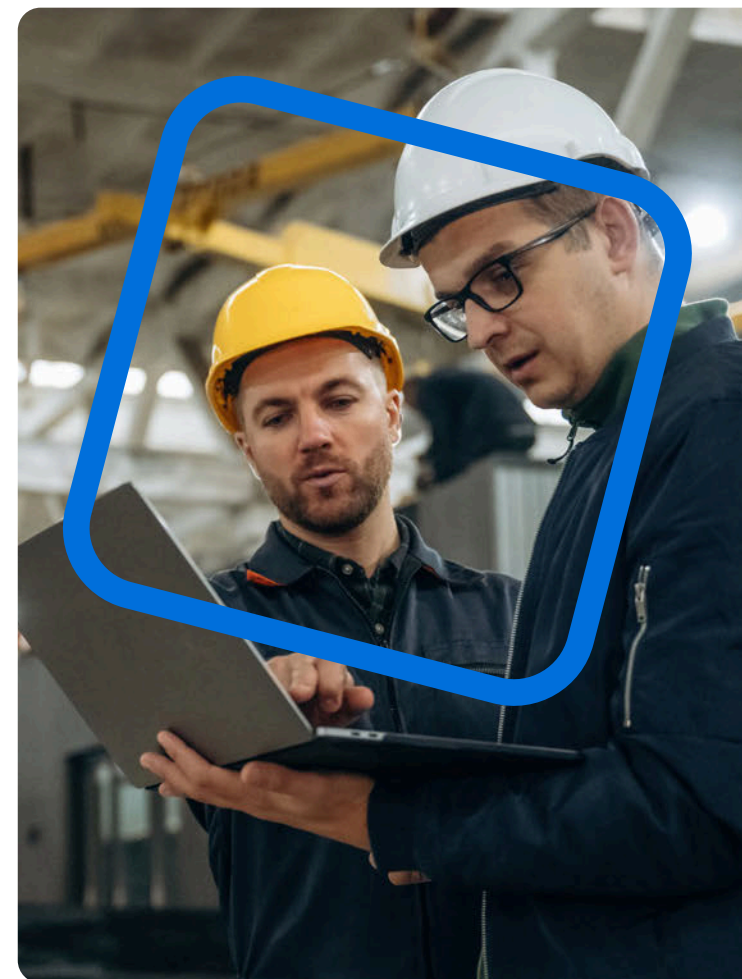

ADVANCED PRODUCTION PLANNING

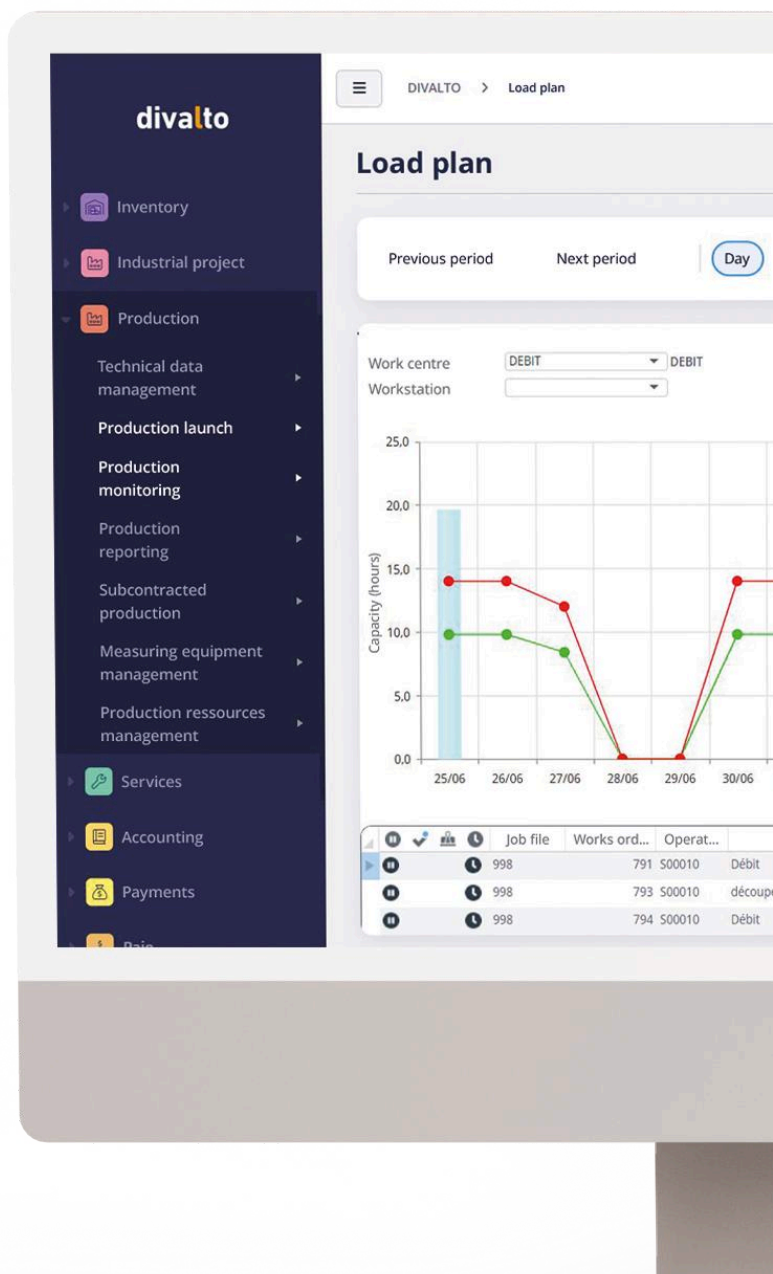

Take full control of your manufacturing operations with **powerful planning tools**:

- Master Production Schedule (MPS)
- Finite capacity scheduling
- Graphical planning (Gantt)
- Project-based production management

Visualise workloads across confirmed and forecasted production orders, anticipate bottlenecks, and **adjust resources in real time**.

Simplify complexity, improve visibility, and boost productivity.

MOBILITY FOR SALES TEAMS AND FIELD TECHNICIANS

Divalto industry integrates a **mobile CRM solution** into the ERP, enabling **sales teams** to access data anytime and capture orders in real time.

Field technicians (installation, maintenance or after-sales) benefit from a dedicated application with:

- scheduling
- inventory access
- quoting capabilities
- offline mode for remote operations

SMART INVENTORY MANAGEMENT & WMS

Simplify and optimise inventory management with intelligent product data and pricing structures.

The system provides:

- full traceability of material flows
- accurate inventory valuation
- real-time stock visibility

The built-in WMS orchestrates warehouse operations:

- dynamic storage
- picking and shipping preparation
- real-time replenishment

Result: optimised inventory, reduced costs, better decisions, and fewer stockouts.

A CONNECTED ECOSYSTEM OF TECHNOLOGY SOLUTIONS THAT LETS YOU EVOLVE WITHOUT CONSTRAINTS

Divalto industry ensures full digital continuity across your projects and production models.

With its technology partner ecosystem, you can:

- integrate specialised business tools
- connect machines and equipment (conveyors, automated storage systems...)
- scale your operations without constraints

AI FOR INDUSTRIAL PERFORMANCE

- Built-in AI assistant
- Automated content generation (summaries, descriptions, structuring)
- Actionable insights to support decision-making
- Smarter, faster operations

DISCOVER
DIVALTO AI
IN ACTION

THE CONNECTED ERP OPEN TO INNOVATION

DESIGNED FOR MODERN MANUFACTURING ENVIRONMENTS

- Centralised data flowing across all systems.
- EDI, APIs and web services for seamless interoperability
- Real-time monitoring of production, inventory and performance
- Ready for smart factory use cases

Integrates naturally with industrial systems:

- **CAD** - Technical drawing
- **PLM** - Product lifecycle management
- **MES** - Manufacturing Execution System
- **IoT** - Internet of Things
- **BI** - Business Intelligence
- Etc.

ENSURE FULL DIGITAL CONTINUITY FROM ENGINEERING TO THE SHOP FLOOR.

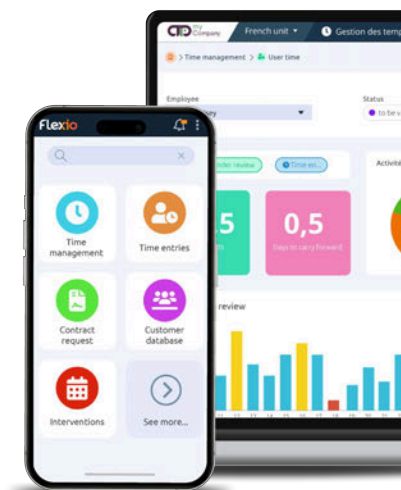

CUSTOM DASHBOARDS & BUILT-IN DATA VISUALISATION

- Real-time visibility with integrated no-code dataviz
- Build dashboards independently
- Track KPIs and manage performance at a glance

FLEXIO THE AI AND NO-CODE PLATFORM TO GO EVEN FURTHER IN DIGITALISING YOUR BUSINESS PROCESSES

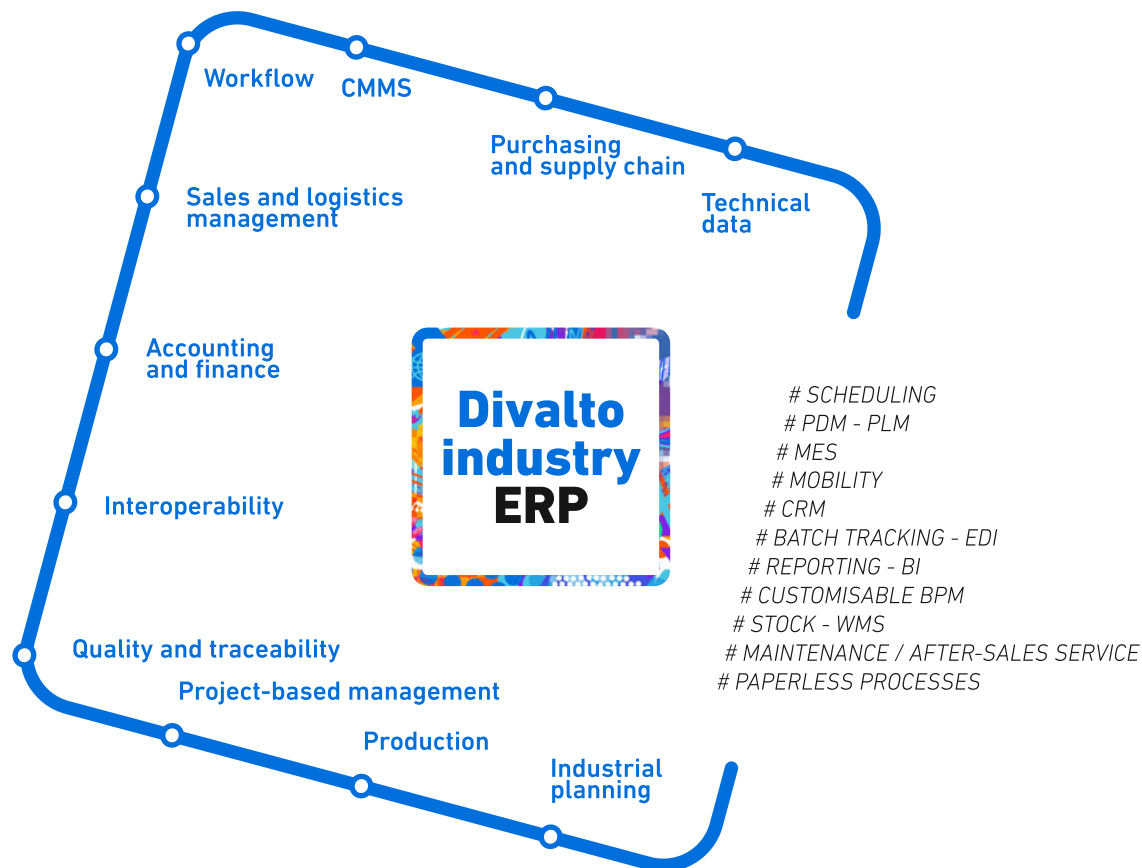

With Flexio, the **no-code AI application-building platform enriched with a store of ready-made business application templates**, creating applications becomes simple, fast and cost-effective.

Flexio allows operational teams (maintenance, quality, production, HSE, etc.) **to extend the ERP by designing their own business applications and then developing them independently.**

THE INDUSTRY 4.0 SOFTWARE

COMPLETE FUNCTIONAL COVERAGE WITH AI TO MANAGE YOUR BUSINESS

Divalto industry integrates advanced capabilities, including built-in AI, to address Industry 4.0 challenges by connecting data, processes, and equipment for smarter, more agile manufacturing

INDUSTRY-SPECIFIC ERP

FEATURES

INDUSTRIAL PLANNING

- Sales forecasting / MPS / capacity load plan
- Graphical planning – Gantt
- MRP II
- Scheduling
- Load and capacity simulation

REPORTING – BI

- CRM dashboards & sales management
- Industrial monitoring dashboards
- Customisable widgets
- Power BI / My Report

CRM & SALES

- Lead and opportunity management
- Prospect and opportunity management
- Technical and sales configurator
- Standard, technical, project-based and works quotes (with cost breakdown) and order management
- Cost price and margin management

PRODUCTION INTEGRATED MES

- Production order management and grouping
- Quantity and time tracking
- Subcontracting management
- Production reporting
- OEE analysis
- Work-in-progress and stock cut-off
- Employee certification

PURCHASING AND SUPPLY CHAIN

- Net requirements calculation and replenishment (CBN)
- Tender, order and pricing management
- Supplier and subcontractor management
- Lead time management

TECHNICAL DATA PDM / PLM

- Multi-level routings and BOMs
- Revision management
- Engineering change request management

CMMS – PRODUCTION EQUIPMENT

- Management of production and inspection equipment
- Calibration of measuring instruments
- Equipment life-cycle records
- Equipment availability planning

QUALITY & TRACEABILITY

- Batch and serial number traceability
- Batch records and external batch management
- Product and system quality management (ISO 9001)
- Non-conformity reports / action plans / 8D reports
- Supplier rating / employee certification
- Inspection plans

WORKFLOW – BPM

- Cross-functional process management

SUPPLY CHAIN & LOGISTICS INTEGRATED WMS

- Location management with attributes
- Putaway and picking policy management
- Receiving, picking and shipping management
- Handling units (HU) and packaging units (PU)
- Container management (GS1)
- Safety stock
- Stock management by type and operation code
- Stock movement tracking
- Reservation management
- Stock counts

INSTALLATION, MAINTENANCE & AFTER-SALES

- Maintenance contract and warranty management
- Installed equipment base management
- Multi-agency technician fleet management
- Technician scheduling
- Warehouse and technician vehicle stock management
- After-sales quote, order and invoicing management
- Customer calendar
- Contract and project profitability

ACCOUNTING & FINANCE

- General and cost accounting
- Analysis by cost centre
- Fixed assets
- Budget
- Cash management
- Group consolidation

MOBILITY & INTEROPERABILITY

- Document management (EDM)
- Field CRM mobility
- Shop-floor mobility
- Offline field mobility for after-sales & field service technicians

MULTI-COMPANY, MULTI-SITE, MULTI-LANGUAGE

PROJECT-BASED MANAGEMENT

- Costing / estimating
- Scalable project tree (parent/child projects, template)
- Project requirements calculation (CBA)
- Graphical planning – Gantt
- Activity-based work orders
- Invoicing plan
- Project financial report (forecast vs. actual)

TECHNOLOGY PARTNERS

- Connection kit to interface Divalto Industry with PDM/PLM, CAD, MES, IoT, BI, EDI, e-commerce software, TMS, etc.

THE POWER OF CLOUD ERP

PERFORMANCE, AGILITY, SECURITY

- Fully web-based ERP hosted in a leading cloud environment
- High availability and continuous backups
- Scalable, always up-to-date infrastructure

CONTROLLED COSTS, MAXIMUM MOBILITY

- Reduced infrastructure and maintenance costs
- Optimised total cost of ownership (TCO)
- Real-time access to data, anywhere and on any device.

MODERN, RESILIENT ARCHITECTURE

- Monitored cloud environment for stable and long-lasting performance.
- Enhanced security to protect your data and your know-how.
- Native flexibility and scalability to keep pace with changes in your business.

**ALWAYS CONNECTED,
ALWAYS PERFORMING.
WITH DIVALTO INDUSTRY IN SAAS,
YOUR COMPANY REMAINS AGILE
AND OPTIMISES ITS TCO.**

E-INVOICING COMPLIANCE (FRANCE)

A READY-TO-USE RESPONSE TO THE E-INVOICING REFORM (FRANCE)

Our packaged e-invoicing solution is designed to combine regulatory compliance, security, and operational simplicity. It is based on an integrated approach built on two pillars:

- Fully integrated ERP processes covering the complete e-invoicing and e-reporting workflow end to end.
- Certified partner platform: an approved

platform service operated by Dococon, ensuring compliance, reliability and service continuity

In practical terms, you benefit from:

- Guaranteed compliance: automated invoicing and e-reporting, fully aligned with French regulations.
- Secure data: sovereign, certified hosting that meets the highest standards.
- Simplified control: monitoring, signing and full traceability of your invoices, directly from your ERP.

DIVALTO

A LEADING FRENCH SOFTWARE VENDOR

|| Divalto is a strong and inspiring French company, built on a rich history and a dynamic, loyal ecosystem. It draws on the strength of its network and its people, their skills, enthusiasm and creativity, to keep advancing its solutions and deliver the best possible experience to its users every day.
